

Charts are culled from yesterday's biggest percentage gainers and losers and filtered for technical significance: breakouts, sector themes, relative strength leadership changes, bottom-up/top-down ideas.

Key Points:

- Photonics, lasers, satellite, semis and suppliers remain leadership. Software remains the weakling in the Sector, and many are being forced into owning what is working. While we remain bullish on these areas it will not be without some degree of hesitation, but we won't fight the current trend. (ex. ATOM, ASTS, SATS, LUNR, LPTH, OPTX, TTMI, ONTO, BE, VSH, AMD, AAOI, MRVL, LASR, AVGO, TOYO, COHR, FN, AMKR, COHU, MTSI, MXL, RMBS, SITM, FEIM, OCC, AMPX, ANVX, ICHR, UCTT, BKSJ, CRWV, NBIS, and SPIR)
- Biotechnology remains a leadership Group. (ex. CLYM, FBRX, URGN, VERA, ZNTL, RCEL, and MLAB)
