

Charts are culled from yesterday's biggest percentage gainers and losers and filtered for technical significance: breakouts, sector themes, relative strength leadership changes, bottom-up/top-down ideas.

Key Points:

- Highly speculative areas such as nuclear small reactor companies, quantum and crypto miners are seeing bullish inflections. This is technically bullish, but we would be careful in this Group. (ex. QMCO, INFQ, IONQ, XNDU, NKLR, IREN, and WULF)
- Biotechnology remains a leadership Group. (ex. ARMP, BNTC, ELTX, IMVT, INBX, KOD, MGTX, SRZN, TNGX, TWST, VIR, RCEL, IART, ORKA, STRO, TVTX, PTGX, RGEN, LGND, and RVMD)
