

Charts are culled from yesterday's biggest percentage gainers and losers and filtered for technical significance: breakouts, sector themes, relative strength leadership changes, bottom-up/top-down ideas.

Key Points:

- Highly speculative areas such as nuclear small reactor companies, quantum and crypto miners are seeing bullish inflections. Also the Space related names are developing major bases and breakouts. This is technically bullish, some are certainly speculative others are not. (ex.FLY, LUNR, RDW, RCLB, SATL, XNDU, SIDU, MARA, VOYG, BKS, and PL)
- Technology remains leadership and continues to have many names that are surging. (ex. SILC, ADTN, DELL, HPE, LPTH, RFIL, INTT, AEHR, AXTI, VSH, SANM, AAOI, AIP, WATT, NVTS, LASR, ON, TOYO, WOLF, COHR, AMKR, AMD, INTC, MXL, SMT, CIEN, KVHI, LITE, NTGR, VIAV, DOCN, and ORCL)
